

SHABAZ PASHA

Data Analyst | IT Service Operations | Power BI Developer

shabazsam94@gmail.com | +91-9353114993 | linkedin.com/in/shabaz283104 | Bangalore, Karnataka – 560068

PROFESSIONAL SUMMARY

Results-driven Data Analyst and Senior Technical Process Executive with 2+ years of experience in IT service operations, incident management, and data-driven decision making. Proficient in Power BI dashboard development, SQL data extraction, Python analytics, and SLA compliance monitoring. Currently completing a Data Analyst Certification at Datamites Institute with hands-on project experience in CSAT analytics, machine learning, and business intelligence. Proven ability to translate complex datasets into actionable insights that optimize operational efficiency and customer satisfaction.

CORE COMPETENCIES & TECHNICAL SKILLS

 Analytics & BI Power BI, Advanced Excel SQL, Python, Statistics	 IT Operations ServiceNow, Active Directory HCL BigFix, SLA Management	 ML & AI Machine Learning, NLP Copilot AI, Sentiment Analysis	 Soft Skills Root Cause Analysis Stakeholder Communication

PROFESSIONAL EXPERIENCE

Senior Technical Process Executive | Infosys BPM LimitedMysore, India | Feb 2026 – Present

- ▶ Deliver B2B IT infrastructure support and complex technical troubleshooting for Bendigo and Adelaide Bank enterprise users, maintaining 95%+ customer satisfaction scores.
- ▶ Manage user lifecycle including provisioning, access configurations, and deprovisioning within Active Directory (AD) environments for 500+ enterprise accounts.
- ▶ Optimize endpoint administration and automated software deployments across client network utilizing HCL BigFix Unified Endpoint Management, reducing deployment time by 30%.
- ▶ Drive end-to-end incident lifecycle management using ServiceNow ITSM platform, consistently maintaining SLA compliance above 98% for P1/P2 critical incidents.
- ▶ Develop Power BI dashboards integrating Copilot AI to analyze ticket queue trends, identify recurring defects, and generate data-driven process improvement recommendations.
- ▶ Apply root cause analysis (RCA) methodologies to resolve complex escalations, reducing repeat incidents by 25% through systematic problem management.

Technical Support Specialist – Lenovo Process | Joules To Watts / ConcentrixBangalore, India | Jan 2025 – Jan 2026

- ▶ Resolved 40+ technical CRM tickets daily across digital and voice channels, achieving consistent turnaround times within strict SLA parameters.
- ▶ Managed complex customer and dealer infrastructure escalations, maintaining high Net Promoter Score (NPS) and client satisfaction metrics.
- ▶ Coordinated with cross-functional software and engineering teams to systematically identify and resolve recurring product issues, reducing repeat contacts by 20%.
- ▶ Maintained granular case documentation in Microsoft Dynamics CRM to support diagnostic metrics, training resources, and compliance auditing.
- ▶ Leveraged data analysis techniques using Advanced Excel to identify patterns in customer complaints and drive process optimization initiatives.

PROJECTS

CSAT Analytics Dashboard — Datamites Internship Project

- ▶ Extracted and analyzed 32,941 customer service records from a MySQL relational database using structured SQL queries and Python (Pandas) for data cleaning and transformation.
- ▶ Built an end-to-end interactive Power BI dashboard with 5 visualizations — Line Chart (call trends), Doughnut Chart (channel distribution), Map (geographic analysis), Column Chart (call reasons), and Bar Chart (SLA compliance).
- ▶ Derived 7 key business insights revealing 53% negative customer sentiment, 71.2% billing-related call volume, and 2.07/10 average CSAT score — enabling targeted service improvement strategies.
- ▶ Identified California and Texas as top call-volume states (22% combined), recommending focused regional resource allocation to improve response times.
- ▶ Delivered comprehensive stakeholder presentation with data-driven recommendations for billing process optimization, chatbot enhancement, and staff scheduling improvements.

Tools & Technologies: MySQL, Python (Pandas), Power BI, DAX, SQL, Microsoft Excel, Data Visualization

E-Commerce Product Experience Optimization via Opinion Mining

- ▶ Developed an end-to-end Machine Learning pipeline to scrape, clean, and analyze consumer sentiment and behavioral patterns from 10,000+ unstructured product reviews using Python NLP libraries.
- ▶ Applied Natural Language Processing (NLP) techniques including tokenization, TF-IDF, and sentiment classification to generate actionable insights for recommendation engine optimization.
- ▶ Achieved 87% sentiment classification accuracy using ensemble ML models, improving customer UX metrics and product recommendation relevance.
- ▶ Recognized as an award-winning state-level project showcasing advanced consumer behavior analytics and NLP applications.

Tools & Technologies: Python, Scikit-learn, NLTK, Pandas, NumPy, Machine Learning, NLP, Data Visualization

Data-Driven Farm Management Infrastructure System

- ▶ Designed and architected a robust SQL database management system for secure record-keeping, resource input logistics, and operational tracking across farm management workflows.
- ▶ Engineered intuitive reporting dashboards and streamlined user flows, reducing tracking errors by 40% and accelerating data entry usability for non-technical users.

Tools & Technologies: SQL, Database Design, Reporting, Data Visualization

EDUCATION

Data Analyst Certification Program | Datamites Institute

Bangalore | 2025 – Present

- ▶ Coursework: Advanced Excel, SQL, Power BI, Python, Statistics, Machine Learning, Data Visualization, Business Intelligence
- ▶ Hands-on projects: CSAT Analytics Dashboard, Opinion Mining ML Pipeline, Farm Management System
- ▶ Currently in Project Phase — building end-to-end analytics solutions using industry-standard tools

Bachelor of Engineering – Information Science & Engineering | Visvesvaraya Technological University

Karnataka | 2020 – 2024

- ▶ Cumulative GPA: 7.4 / 10 | Relevant coursework: Data Structures, Algorithms, Database Management Systems, Machine Learning

CERTIFICATIONS & TOOLS

Data & Analytics

- ▶ Power BI (Dashboard Development, DAX)
- ▶ SQL (MySQL, Query Optimization)
- ▶ Python (Pandas, NumPy, Scikit-learn)
- ▶ Advanced Microsoft Excel (Pivot, VLOOKUP)
- ▶ Statistics & Machine Learning

IT & Enterprise Tools

- ▶ ServiceNow ITSM (Incident, Problem, Change)
- ▶ Microsoft Dynamics CRM
- ▶ HCL BigFix Endpoint Management
- ▶ Active Directory (User & Access Management)
- ▶ Copilot AI, Microsoft 365
