PROFESSIONAL SUMMARY

BCA final-year student (2026) skilled in Python, SQL, HTML, Tableau, and AWS. Developed projects in healthcare dashboards, hospital operations, and mutual fund prediction, delivering actionable insights. Strong problem-solving and teamwork skills, aspiring to a career in Data Science / AI/ML.

INTERNSHIP EXPERIENCE

Machine Learning Intern

Jan 2026 - Feb 2026 | Bangalore

Prinston Smart Engineers

- Developed and trained machine learning models using Python on real-world datasets.
- Applied data preprocessing and exploratory data analysis to improve model quality.
- Evaluated and validated models using appropriate performance metrics.
- Collaborated with cross-functional teams to document insights and support project delivery.

Projects

Mutual Funds India Prediction

Academic Project | 2025-2026

- Built machine learning models using Python to predict mutual fund performance using historical financial data.
- Performed data preprocessing, feature selection, and model evaluation to generate accurate and actionable insights.

Healthcare Dashboard - Excel

Mini Project | 2025

- Created an interactive Excel dashboard to monitor key healthcare metrics.
- Used pivot tables and charts to analyze data and support decisions.

Hospital Operations And Revenue Intelligence System

- Built interactive Power BI dashboards to analyze hospital operations and revenue performance.
- Visualized key KPIs to support data-driven insights for management decisions.

EDUCATION

Bachelor of Computer Application (BCA)

2023 - 2026 (Currently Pursuing)

St. Francis College, Bangalore City University

- Relevant Courses: Python, Data Analytics, Machine Learning, Data Structures, Web Development.

Al-Ameen PU College - Bangalore

March 2023

12th Grade

SKILLS

Programming Languages Python, Java

Data & Analytics SQL, MS Excel (Dashboard, Pivot Tables), Tableau, Power BI

Machine Learning / AI Machine Learning, Data Analysis

Cloud & Tools AWS, Git, GitHub, Jupyter Notebook, VS Code

Productivity Tools MS PowerPoint

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** Cloud Institution
- **Tableau For Data Visualization** Campus Tech
- **Data Analytics Using Python** ISO-Certified, VTU-Partnered
